God bless you all. I would like to share with you how God delivered me from panic attacks, fear and anxiety. I suffered from panic attacks for almost ten years. For those of you that are not familiar with the symptoms of these attacks, it includes the following (rapid heartbeat, chest pain, feeling faint and weak, difficult to breathe, numbness etc). I suffered from these attack usually when I needed to go to the store or church and later on even when I was at home. I became depressed and ...

Walking by faith and not sight. In 2015 I turned 21. I just wanted to have fun. I'm not proud to announce this but I left a toxic relationship, dated a married man, dated a couple guys, got pregnant and had an abortion. The father influenced me to get it but I was so weak that I did. In April 2015, few weeks after the abortion, I experienced my first outbreak. I was officially diagnosed in July of HSV1 and HSV2. Worst nightmare of my life. Felt like I was ...

I started my journey with Christ in 2012 being baptized in a non denominational church, I grew up in a catholic household knowing Christ but never really put in effort to walk with him before that year. Being a strong follower and associating myself within my church is one of the minor reasons I made it through the tragedies that I went through.... here's my testimony. It was an early foggy morning on the day of January 31,

In Oct of 1993, on my 40th Birthday and I was standing outside on what was a beautiful sunny fall day at my home in Ohio. I vividly remember thinking to myself as I stood there, how good I felt at the age of 40. And except for a minor hypertension problem I was in excellent health. I owned my own 18-Wheeler, and I was making runs to California and back 3 or 4 times a month. Life was great. Nov 4th, 1993, My life has changed radically. The week ...

God's Name Is To Be Glorified!

I remembered getting occasional health threats like a while back a doctor told me I may have a heart issue. I did a number of testings and thank and praise God! He prevented it from being anything serious. However, I don't recall experiencing problem after problem in the past. Maybe because as we grow older we experience more problems in life, I recently experienced problems one after another. Thanks to God, through sufferings I came closer to God and I was also able to see how God was with me ...

First and foremost I just want to thank God. I give Him all the glory, honor and praise because He is so worthy!!! Before I got saved I was in such a dark place in my life, I was so confused and looking for love in all the wrong places. I ended up catching an incurable std. genital warts. I did not know what to do with myself I tried to everything to get rid of them. From freezing them from ACV to try to burn them off they still ...

Another testimony: I am telling you, I never thought walking could be as painful as I experienced it to be. Simply falling down in my chair that someone readjusted without my knowledge caused me excruciating pain. June 13, 2017 at work after new carpet was installed in our area; I sat down not knowing my chair was readjusted. Later on same day I started feeling tightening, spasms and pain in my right leg, and thigh. I wasn't thinking about me losing my balance when I sat down. Later on the ...

All glory be to God forever. Jesus Christ is alive and through the Holy Spirit miracles can happen. I am so happy and I don't know where to start. Last year November 2016, I contracted HSV2, aka genital herpes from sinning against God. Met up with a guy from the internet and was fingered by him, though it was evident that his fingers had herpes whitlow. In February 2017, I had a blood test for herpes and IgG for positive. From then onwards I felt suicidal and depressed. I told ...

"Consider it pure joy, my brothers when you face trials of many kinds, because you know the testing of your faith develops perseverance." James 1:2 Tuesday night, I was out of town when I got a call from home that my dad was rushed to the hospital. Upon hearing that, I tried to stay positive, not letting myself to worry. Upon arriving at the hospital, I learned that it was the same condition that he was suffering several years ago where he coughs or at worst vomits with blood. Based ...
